JOHN BHOORE ESQ AMICE
Chief Engineer of Mysore
Bangalore

GEN. P. P. ECTT
5379
5 JUNE 1929
L S U U WH

To

M. V. S. W. Iyengar, Esq, B A, B L,
General Secretary to Government Bangalore

SIR

I have the honor to forward herewith, an estimate amounting to Rs 6,170/- for the construction of shops on the main drain on the eastern side of Avenue Road Bangalore City for favour of sanction with the following remarks -

- (1) the depth of foundation provided for the northern side shop walls seems high, and may be caused to be reduced by widening the foundation if necessary
- (2) the sections of the girders provided below the main wall are insufficient to carry a load of 11 tons for a span of 26 feet and heavier sections are required, but the calculations furnished are for half the width of the span i.e., 26/2 = 13 feet

The conditions as stated and the calculation requires verification before the work is put in hand

Provision for terrace roof is made for northern shop in the estimate but in the elevation sloped tile roofing is shown. The plan has been altered to suit the estimate provisions

A copy of the Municipal resolution approving the proposal is also appended

It is stated in the covering letter no 367 dated the 5th February 1929, received from the President that there is no allotment for this in the current year's budget and that necessary fund will be reappropriated from the other works

The enclosures received with the above letter are
herewith forwarded

I have the honour to be,

S i r,

Your most obedient servant,

John B. ... 30 5 29

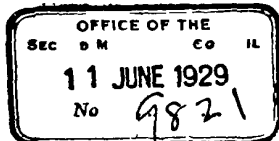

Chief Engineer of Mysore

1) Draft same tenings
is submitted for approval

Sub
66296-2

A

The C E observes that the details of formation / work
in the estimate is rather high and may be reduced,
and (or) that the work in the present estimate are not
adequate for the loads to be carried. The estimate may
therefore be returned to the President of the Institute for
further modification in the light of the C E's remarks.
3) It was stated that funds would be provided
for the work during the current year by the appropriation,
the financial year being nearly over the President
may be asked to point out the specific provision for
the work in the next year budget.
